

Vincent Zvenigorosky, PhD

Forensic Geneticist • Quality Manager (ISO 17025) • Molecular Anthropology

Strasbourg, France (EU) • Field experience in Siberia vincent.zvenigorosky@proton.me

PROFESSIONAL SUMMARY

PhD-trained forensic geneticist and molecular anthropologist with over a decade of experience spanning forensic identification, ancient DNA, population genetics, and bacterial genomics. Currently serving as Quality Manager at StrasGene (ISO 17025), responsible for designing and implementing quality and document management systems. Publication record of 17+ international peer-reviewed articles (7 as first author), extensive fieldwork in Siberia, and 210+ hours of university teaching. Native French and English speaker, with working proficiency in Russian and German.

CORE COMPETENCIES

FORENSIC & MOLECULAR GENETICS • STR profiling and forensic identification • Kinship determination (Bayesian models) • Ancient and degraded DNA (FFPE, aDNA) • NGS / whole-genome enrichment sequencing • Mitochondrial and Y-chromosome analysis • Phenotypic and epigenetic markers	BIOINFORMATICS & ANALYSIS • Population genetics and archaeogenetics • Phylogenetics and evolutionary analysis • Biostatistics and data interpretation • Antibiotic resistance detection • Reproducible computational workflows • Scientific writing and publication strategy
QUALITY & MANAGEMENT • ISO 17025 quality management systems • SOP design, writing and implementation • Document management system design • Laboratory quality and compliance • Supervision and mentoring • Project coordination and reporting	LANGUAGES • French — Native • English — Native • Russian — Working proficiency • German — B1/B2 • Spanish — Notions • Yakut — Notions

PROFESSIONAL EXPERIENCE

Quality Manager (ISO 17025) StrasGene Molecular Anthropology Laboratory Strasbourg, France • Designed and implemented the quality management and document management systems for the forensic genetics laboratory. • Wrote and deployed SOPs, quality records, and compliance documentation aligned with ISO 17025 accreditation requirements. • Coordinated internal audits, corrective actions, and continuous improvement processes.	2024 – Present
Post-doctoral Researcher — Bacterial and Cancer Genomics BABEL Laboratory (CNRS UMR 8045), University Paris Cité Paris, France • Large-scale genomic characterisation of <i>Treponema pallidum</i> from archived FFPE samples in historical syphilis cases, coupled with histological and medical history study. • Analysis of a 37-marker panel in breast cancer cases and genomic exploration of endometriosis.	2023 – Present
Post-doctoral Researcher — Ancient Bacterial Genomics SAGE Laboratory (CNRS UMR 7363), University of Strasbourg Strasbourg, France • Genomics and evolutionary history of <i>T. pallidum</i> (syphilis) via high-throughput NGS sequencing of ancient paraffin-embedded samples; antibiotic resistance detection and phylogenetic analysis.	2020 – 2023
Post-doctoral Researcher — Forensic Identification BABEL Laboratory (CNRS UMR 8045), University of Paris Paris, France • Forensic identification of unknown remains; mitochondrial and Y-chromosome lineage analysis; phenotypic and epigenetic marker profiling.	2019 – 2020

TEACHING EXPERIENCE

Forensic Genetic Identification & Genetic Kinship

Ongoing · 210 h total

Faculty of Medicine, University of Strasbourg

- 9-week course (8 weeks online) for M1 and M2 students of the Forensic Medicine and Criminalistics Master's programme.
- Topics: molecular biology methods, forensic STR markers, individual profiling, and Bayesian kinship determination.
- Prepared and graded examinations for both year levels over three consecutive years.

Population Genetics

Ongoing · 16 h total

Faculty of Sciences, University of Strasbourg

- Five lectures on statistical methods and data visualisation in population genetics for M1 Ecology & Evolution students.
- Prepared and graded exam questions annually.

FIELD RESEARCH

Expedition — North-Eastern Siberia

Feb – Apr 2019

Sakha Republic (Yakutia), Russia

Collection of biological samples and anthropological data

French Archaeological Mission in Eastern Siberia (MAFSO)

2017

Yakutia (Sakha Republic), Russia

Archaeological excavation

Expedition — North-Eastern Siberia

Sep – Dec 2016

Sakha Republic (Yakutia), Russia

Collection of biological samples and anthropological data

EDUCATION

PhD in Biological Anthropology

2015 – 2018

Toulouse 3 University

M.Sc. Genetic Anthropology (Year 2) — *First in class*

2014 – 2015

Toulouse 3 University

M.Sc. Physical Anthropology and Prehistory (Year 1)

2013 – 2014

Bordeaux 1 University

B.Sc. Biology · University Diploma in English

2009 – 2013

University of Caen Normandy / Montpellier 2 University

Teaching Certification, English Language

2014

SELECTED PUBLICATIONS

 18 internat. peer-reviewed articles · 7 as first author · 1 book chapter · 3 under review

2026

Crubézy, É. et al. (incl. **Zvenigorosky, V.**). An ancient DNA perspective on the Russian conquest of Yakutia. *Nature* 650, 389–398. doi:10.1038/s41586-025-09856-5 IF: 48.5

Zvenigorosky, V., Gonzalez, A., Fausser, J.L. et al. Genetic genealogy approach to identifying WWI and WWII victims using the Forenseq Kintelligence kit. *Forensic Science International: Genetics*. IF: 3.1

2024

Zvenigorosky, V., Gonzalez, A., Veith, G. et al. Whole-genome enrichment and sequencing of *T. pallidum* from 75-year-old FFPE samples. *iScience*. IF: 5.8

2020
