

Vincent Zvenigorosky, PhD

Forensic Geneticist · Molecular Biologist & Bioinformatician

• Strasbourg, France (EU) — field experience in Central Asia ✉ vincent.zvenigorosky@gmail.com
ORCID 0000-0002-5922-4872

RESEARCH EXPERIENCE

Quality Manager — StrasGene Molecular Anthropology Laboratory, Strasbourg 2024 – present

Design and implementation of the ISO 17025 quality-management and document-management systems for a forensic genetics laboratory.

Post-doctoral researcher — Université Paris Cité, BABEL Laboratory (CNRS UMR 8045) 2023 – present

Large-scale study of medical records and archived samples: characterising the genome of *Treponema pallidum* in syphilis cases, a 37-marker panel in breast-cancer cases, and new genetic data on endometriosis — coupled with extensive historical and histological study.

Post-doctoral researcher — University of Strasbourg, SAGE Laboratory (CNRS UMR 7363) 2020 – 2023

Genomics and evolutionary history of *Treponema pallidum* through ancient paraffin-embedded samples and high-throughput NGS, including detection of antibiotic resistance and a phylogenetic study.

Post-doctoral researcher — University of Paris, BABEL Laboratory (CNRS UMR 8045) 2019 – 2020

Forensic identification of unknown remains; analysis of mitochondrial and Y-chromosome lineages and of phenotypic and epigenetic markers.

EDUCATION

PhD, Biological Anthropology — Toulouse 3 University 2015 – 2018

MSc year 2, Genetic Anthropology — Toulouse 3 University (first in class) 2014 – 2015

Teaching certification in the English language 2014

MSc year 1, Physical Anthropology & Prehistory — Bordeaux 1 University 2013 – 2014

BSc in Biology & University diploma in English — Universities of Caen Normandy and Montpellier 2 2009 – 2013

FIELDWORK & OTHER EXPERIENCE

- **2019** — Expedition, North-Eastern Siberia. Collection of biological samples and anthropological data (Feb–Apr 2019).
- **2017** — French Archaeological Mission in Eastern Siberia (MAFSO). Archaeological dig in Yakutia (Sakha Republic).
- **2016** — Expedition, North-Eastern Siberia. Collection of biological samples and anthropological data (Sep–Dec 2016).
- **2015** — Research internship, AMIS Laboratory (Toulouse): Siberian population genetics, kinship, archaeogenetics.
- **2013** — Diachronic archaeology internship, Montpellier (INRAP).
- **2011–2012** — Research internship, Montpellier Institute of Evolutionary Sciences: population dynamics of South-African fynbos plants.

SKILLS & LANGUAGES

Expertise: forensic, population, evolutionary, bacterial and cancer genetics; archaeogenetics & ancient DNA; NGS

Languages: French (native), English (native), Russian, German, notions of Spanish & Yakut.

data analysis; biostatistics; medical history; social anthropology; ISO 17025 quality management; scientific writing.

PUBLICATIONS — 17 international peer-reviewed (+1 national), 7 first-author, 1 book chapter

2026

Zvenigorosky, V., Gonzalez, A., Fausser, J.L., et al. An innovative genetic genealogy approach to the identification of three victims of World War I and World War II: the new ForenSeq Kintelligence kit. *Forensic Science International: Genetics*, 103492.

Crubézy, É., Guarino-Vignon, P., Seguin-Orlando, A., ... **Zvenigorosky, V.**, ... Orlando, L. An ancient DNA perspective on the Russian conquest of Yakutia. *Nature*, 650, 389–398.

2025

Erdmann, É., Agolli, S., Fix, S., ... **Zvenigorosky, V.**, ... Céraline, J. Human-specific genomic evolution of a regulatory network enables fine-tuning of N-cadherin gene expression. *Cellular and Molecular Life Sciences*, 82(1), 196.

2024

Zvenigorosky, V., Gonzalez, A., Veith, G., et al. Evaluation of whole-genome enrichment and sequencing of *T. pallidum* from FFPE samples after 75 years. *iScience*.

2023

Fedorova, S.A., **Zvenigorosky, V.** & Alekseev, A.N. The Y-chromosome lineage variation in ancient and modern populations of the Sakha (Yakuts). *Russian Journal of Genetics*, 59, 544–550.

2022

Lepetz, S., Bernard, V., Cervel, M., et al. *Occupations et espaces sacrés dans l'Altai Mongol* (book chapter, p.335). Éditions Mergoil. ISBN 978-2-35518-122-1.

2021

Crubézy, E., Duchesne, S., Razafindrazaka, H., ... **Zvenigorosky, V.** Sucrose is not the whole story: risk factors and oral health at the contact (Yakutia, Siberia). *Biology*, 10, 974.

Macé, M., Richeval, C., Alcouffe, A., ... **Zvenigorosky, V.**, ... Crubézy, E. At the origins of tobacco-smoking and tea consumption in a virgin population (Yakutia, 1650–1900). *Biology*, 10, 1271.

2020

Zvenigorosky, V., Duchesne, S., Romanova, L., et al. The genetic legacy of legendary and historical Siberian chieftains. *Communications Biology*, 3(1), 581.

Zvenigorosky, V., Sabbagh, A., Gonzalez, A., et al. The limitations of kinship determinations using STR data in ill-defined populations. *International Journal of Legal Medicine*.

Keyser, C., **Zvenigorosky, V.**, Gonzalez, A., et al. Genetic evidence suggests a sense of family, parity and conquest in the Xiongnu Iron Age nomads of Mongolia. *Human Genetics*.

Gonzalez, A., Cannet, C., **Zvenigorosky, V.**, et al. The petrous bone: ideal substrate in legal medicine? *Forensic Science International: Genetics*, 102305.

2019

Mary, L.*, **Zvenigorosky, V.***, Kovalev, A., et al. Genetic kinship and admixture in Iron Age Scytho-Siberians. *Human Genetics*, 138(4), 411–423. *co-first

Zvenigorosky, V., Nikolaeva, D., Romanov, G., et al. Persistence and disappearance of traditional patrilocality ... two Eastern Siberian communities. *Sibirica*, 18(1), 53–70.

2018

Hollard, C., **Zvenigorosky, V.**, Kovalev, A., et al. New genetic evidence of affinities and discontinuities between Bronze Age Siberian populations. *American Journal of Physical Anthropology*, 167(1), 97–107.

2017

Hollard, C., Keyser, C., Delabarde, T., ... **Zvenigorosky, V.**, Ludes, B. Case report: on the use of the HID-Ion AmpliSeq Ancestry Panel in a real forensic case. *International Journal of Legal Medicine*, 131(2), 351–358.

Zvenigorosky, V., Fedorova, S.A., Hollard, C., et al. A new approach to genetic kinship testing in Yakut archaeology. *Yakut Medical Journal*, 3(59), 16–20. (national journal)

2016

Zvenigorosky, V., Crubézy, E., Gibert, M., et al. The genetics of kinship in remote human groups. *Forensic Science International: Genetics*, 25, 52–62.

Under review: Quantification of human DNA from century-old archived FFPE samples (*bioRxiv*); A family portrait in death: burial decisions and social structure at the Iron Age Saghil site (Mongolia).

TEACHING

Forensic genetic identification & genetic kinship — ~210 h, Master's in Forensic Medicine & Criminalistics.

Molecular biology methods (forensic STR markers), genetic profiling and identification, Bayesian kinship models.

Prepared and graded both first- and second-year exams for three years.

Population genetics — 16 h, MSc Ecology, Evolution & Biology Education, University of Strasbourg.

Use and interpretation of statistical methods and graphics in population genetics; set and graded examination questions.
